

Gisela Norman
Acupuncturist

worldmedicine

A Request for Donations

Gisela Norman, in collaboration with worldmedicine, will be part of a group of health practitioners, mostly acupuncturists, going to the Gaza Strip to work voluntarily in the Occupied Territories for two weeks in October 2009. We will treat citizens and refugees suffering from the physical and emotional effects of trauma and war.

My aim is for this project to be ongoing and will include training the local medical teams so that they can continue our work.

Your donation would be greatly appreciated. Donations are needed to cover the cost of travel, lodgings, translators and equipment.

Donations can be made by:

As many coins or notes dropped into the collection box on the clinic reception desk!

Cheques made out to Gisela Norman and given to the receptionist

Post a cheque to 'World Medicine' and write 'Gisela Norman, Gaza Project' on the back and please include a reply address.

Send to: Charlotte Maxwell, World Medicine, 11a Plympton Road, London NW6 7EH

Donate safely online by credit or debit card by going to Gisela's Justgiving page: <http://www.justgiving.com/Gisela-Norman/>

Project Report:

If you would like to receive a report from the worldmedicine Gaza Project then please leave a contact email address or postal address with the receptionist or with Gisela. Please ask Gisela if you would like more information on the project.

World Medicine is a registered UK charity which provides complementary and alternative healthcare to people around the world suffering the effects of trauma, disaster and poverty.

World Medicine is managed by a volunteer committee who give their time and expertise for free. So far World Medicine has organised projects in Sri Lanka, Indonesia, India and Palestine. World Medicine projects are self-funded, with volunteers fundraising for their own flights, food, and accommodation. Equipment is donated from UK suppliers. Our practitioners are fully qualified in their chosen fields, and include acupuncturists, massage practitioners, herbalists, homeopaths, osteopaths, healers and naturopaths.

World Medicine is non-political, non-religious and non-profit-making.

worldmedicine Gaza Project - October 2009

World Medicine is glad to announce that another team of practitioners are preparing to travel to Gaza in October 2009 to treat Palestinians affected by the recent conflict. June 2009 saw a group of volunteers travel to the Middle East, to work in conjunction with the NGO Medical Aid for Palestinians and a local Mothers' School. Our previous three projects in the region have been well received, with our volunteers treating a wide range of acute and chronic physical and psycho-emotional problems, many of which are stress induced.

One patient reported of her acupuncture treatment:

"The treatment unwound the many screws in my body which had tightened over time."
